I certify that the entries in this log are true.

PILOT'S SIGNATURE

DATE

Column layout per GCAA CAR-FCL (AMC1 FCL.050 pro-forma) (column 11, FSTD sessions, is omitted from this extract — none recorded). Night time and pilot function are computed from the recorded flights using **GCAA** definitions; the same record computed for another authority may show different figures. PIC, PICUS and SPIC are entered in the PIC column per AMC1 FCL.050(b)(1), with PICUS flagged in remarks and countersigned by the PIC. IFR time is not yet recorded and prints as a dash — never as zero. Identity and licence details are as supplied by the holder and are not verified by Sojourn. This document is a record of flights logged; it is indicative and is not legal advice.
